SOLAR ELECTRIC (PV) SYSTEM REQUIREMENTS

General Requirements for Solar Electric (PV) Incentives:

- System must be installed on a site served by a participating electric utility and must be grid-connected.
- All necessary service improvement costs, including transformers and service lines, are the responsibility of the customer.
- System installations must be in compliance with all state, local and federal codes, standards and requirements, including any and all applicable utility standards.
- System must be installed in conformity with the manufacturer's specifications and all applicable codes and standards.
- System owners and installers must obtain all required permits.
- All system components must be new and must be purchased and installed between January 1, 2017 and June 30, 2017.
- All system installations are subject to program inspections at any point following application submission.

System Specific Solar Electric (PV) Requirements:

- Eligible models must be selected from the qualified product list found at gosolarcalifornia.ca.gov/equipment/pv_modules.php.
- Eligible inverters must be selected from the qualified product list found at gosolarcalifornia.ca.gov/equipment/inverters.php.
- System must be installed within 45 degrees of due south, a panel tilt between 10–50 degrees and have 10 percent or less obstacle shading per the analysis of an industry accepted tool.
- System and components must have a minimum of a five year warranty.

CALCULATING YOUR INCENTIVE AMOUNT (Incentive is paid to the individual listed above as a cash-back incentive.)

Residential: 1–3 unit (owner-occupied or rental). Incentive is 12% of installed cost, not to exceed \$2,000*

Solar Electric System Cost: _____ x .12 = \$ _____ incentive (max \$2,000)

For example: Solar Electric System Cost = \$13,000 x .12 = \$1,560 incentive

Business: Any property outside a 1–3 unit home. Incentive is 12% of installed cost, not to exceed \$4,000*

Solar Electric System Cost: _____ x .12 = \$ _____ incentive (max \$4,000)

For example, Solar Electric System Cost = \$40,000 x .12 = \$4,000 (maximum incentive)

*Maximum incentive amounts based on system cost averages from the previous 12 months and will be updated every six months.

ATTACHMENTS (Please attach copies of the following)

OFFER AVAILABILITY

- Businesses or residential customers installing qualified equipment may participate.
- Focus on Energy incentives are available to Wisconsin customers of participating utilities. Call 800.762.7077 or visit focusonenergy.com to verify eligibility.
- Incentive calculation:
 - Residential (1-3 unit owner-occupied or rental) incentive is 12% of installed cost, not to exceed \$2,000
For example: Solar Electric System Cost = \$13,000 x .12 = \$1,560 incentive
 - Business (any property outside a 1-3 unit home) incentive is 12% of installed cost, not to exceed \$4,000
For example, Solar Electric System Cost = \$40,000 x .12 = \$4,000 (maximum incentive)
- **NOTE:** Maximum incentive amounts are based on system cost averages from the previous 12 months and will be updated every six months.
- The only costs eligible for an incentive are: materials, equipment, and external labor.
- Allow approximately 8-10 weeks for processing of application. Incomplete applications cannot be processed. Failure to complete the incentive application in full and provide the required supporting documentation will delay processing or result in your application being denied. Receipt of an application does not guarantee payment of an incentive.
- Funding is limited and available on a first-come, first-served basis on an annual basis. Check remaining funding at focusonenergy.com/renewable. Solar electric systems purchased and installed between January 1, 2017 and June 30, 2017 are eligible for funding under the 2017 program year only.
- Qualified and complete applications received after funding has been exhausted will not be processed.
- The program is not responsible for items (i.e. applications, supporting documentation, incentive checks) lost or damaged in the mail.
- Focus on Energy will only pay one incentive amount for each type of technology per site per calendar year. Incentives paid on this application cannot be claimed on another Focus on Energy application. Similarly, incentives can only be paid to one person or entity.
- All equipment installations are subject to verification inspection by the program to ensure the equipment is properly installed and operating. Participants must allow, if requested, the program or a program representative reasonable access to their home to verify the installed equipment.

PROGRAM QUALIFICATIONS

You are only eligible to participate in the program if you are:

- A current customer of a participating electric utility in Wisconsin at the time of equipment purchase and installation.
- It is purchased new. Resale equipment, new parts installed in existing equipment, or equipment that is leased, rebuilt, rented, received from insurance claims, received from a warranty, received from a grant, or won as a prize does not qualify.
- Equipment is installed by a professional contractor with appropriate insurance, permits, and licenses. A valid Wisconsin State professional contractor's license or credential is required.
- Equipment is installed conforming to all applicable building, local, state and federal codes, standards, ordinances and regulations, and manufacturer specifications.
- Equipment is installed and operational prior to submittal of this application at the address listed on the application.
- It is installed in a property owned by the applicant, or the applicant has received permission from the property owner to install the equipment. If you do not own the property where this equipment is installed, as a residing tenant you are responsible for obtaining the owner's permission to install the equipment for which you are applying for an incentive. Your submission of this application indicates that you have obtained this permission.
- Installing one system per calendar year. Only one solar electric system installed at a site is eligible for one incentive amount per calendar year. Additional systems installed at the site within the same calendar year are not eligible.
- All necessary utility service improvement costs are the responsibility of the customer.
