

**Design size:** 21.29 x 14.29 inches or 54.07 x 36.29 cm

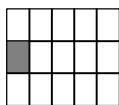

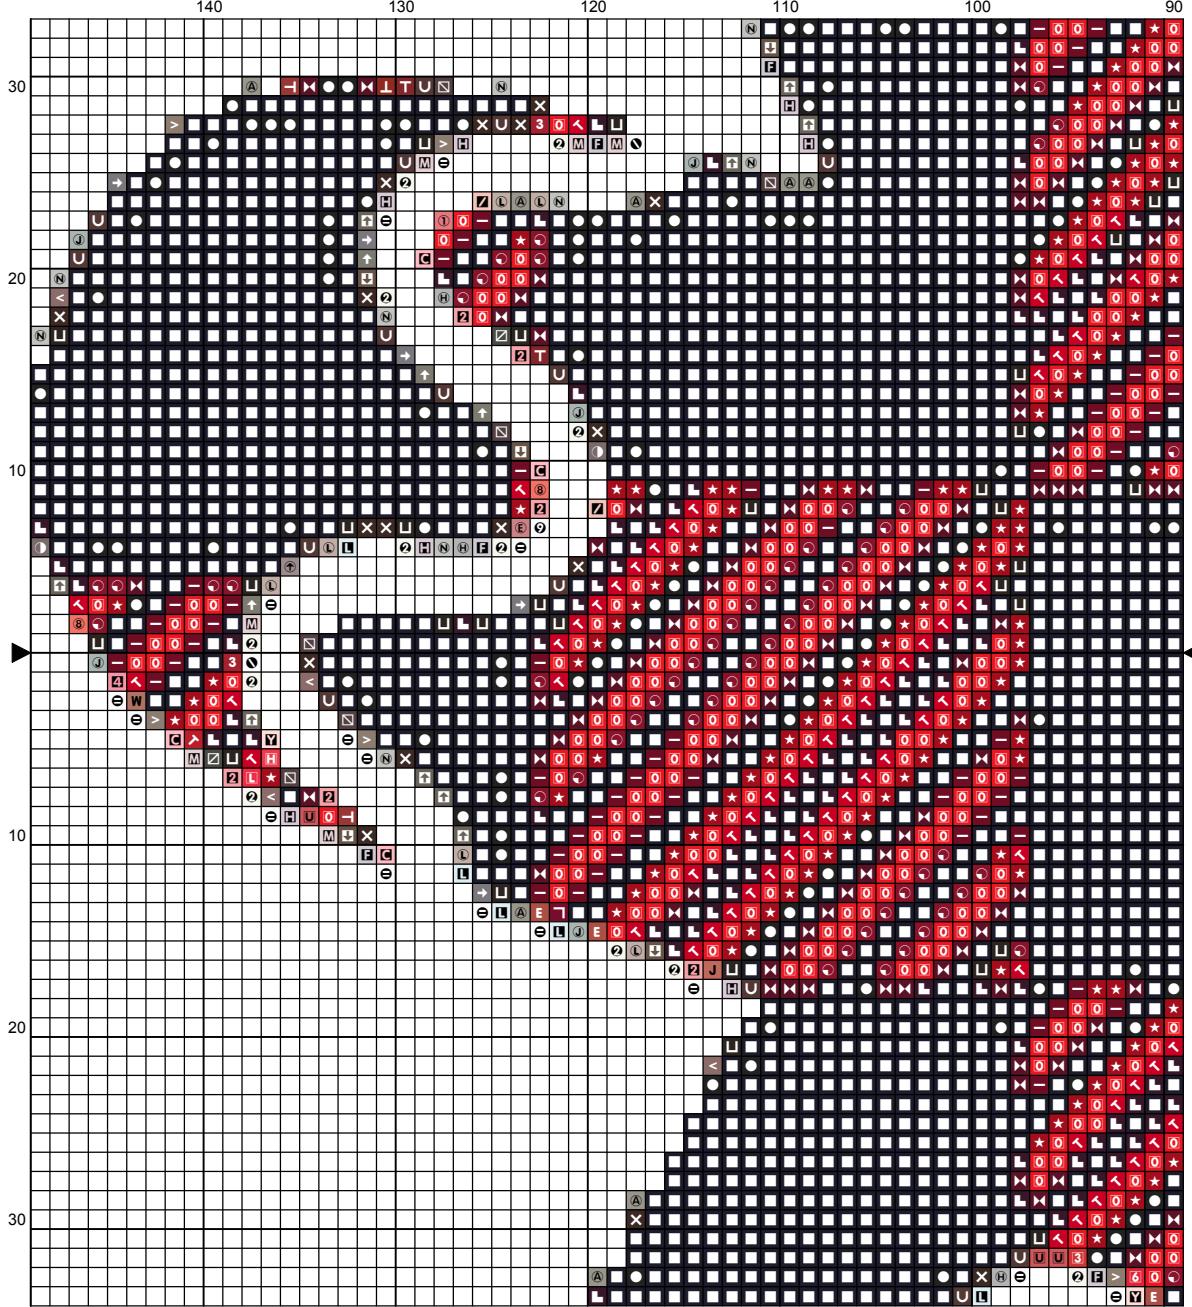

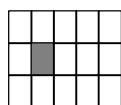

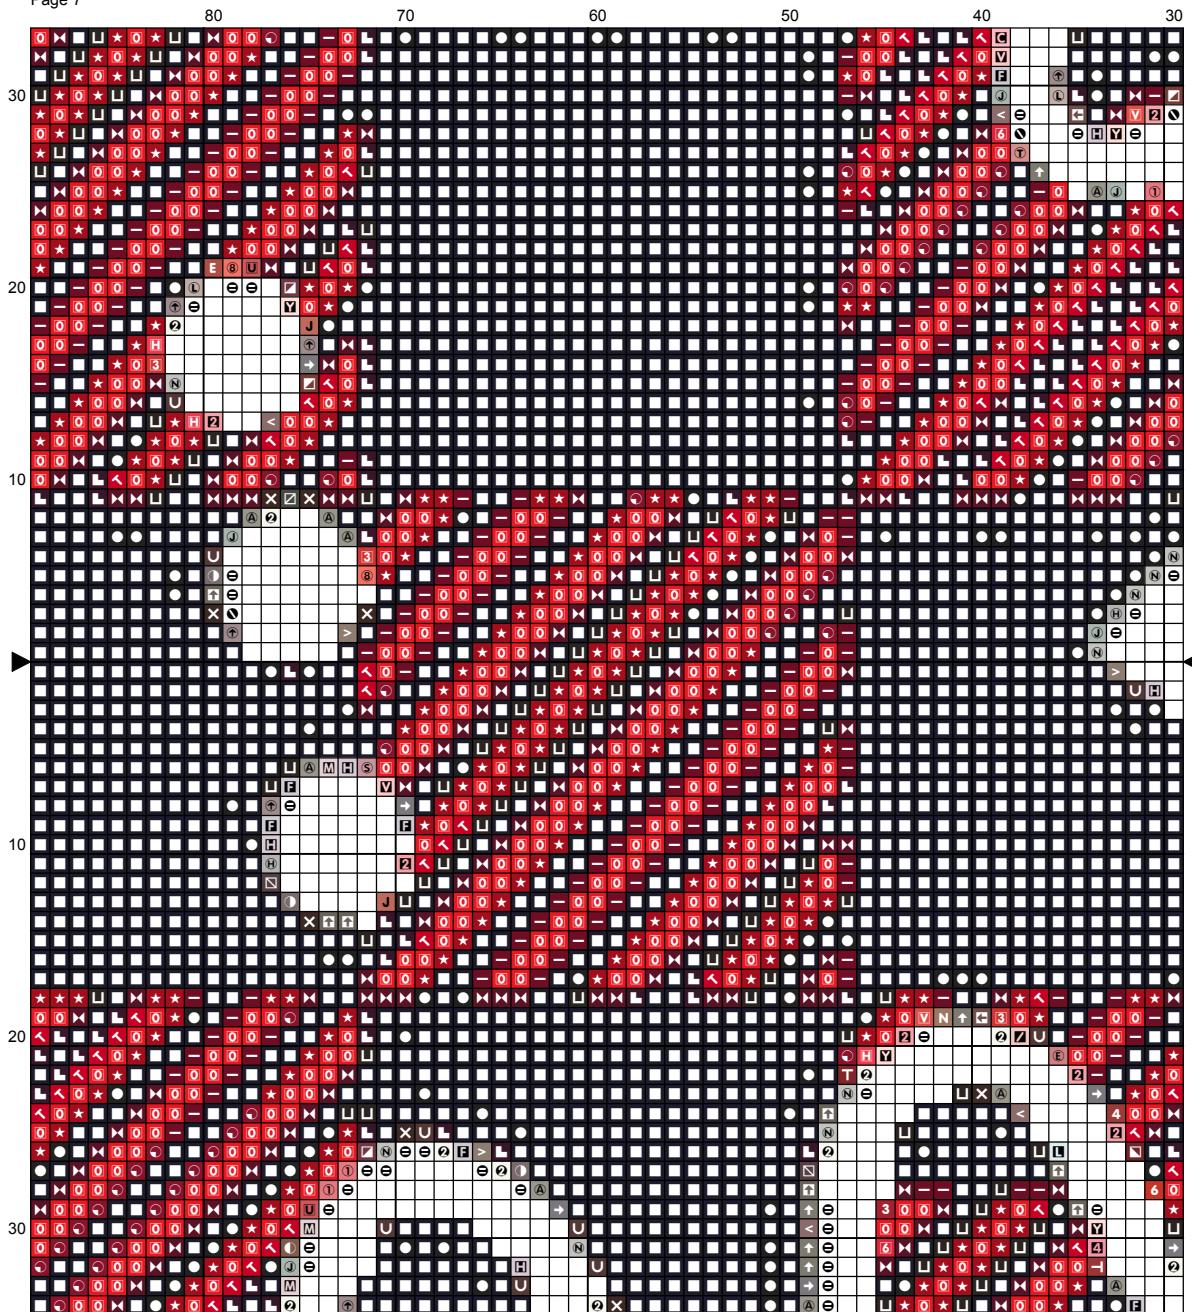

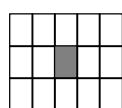

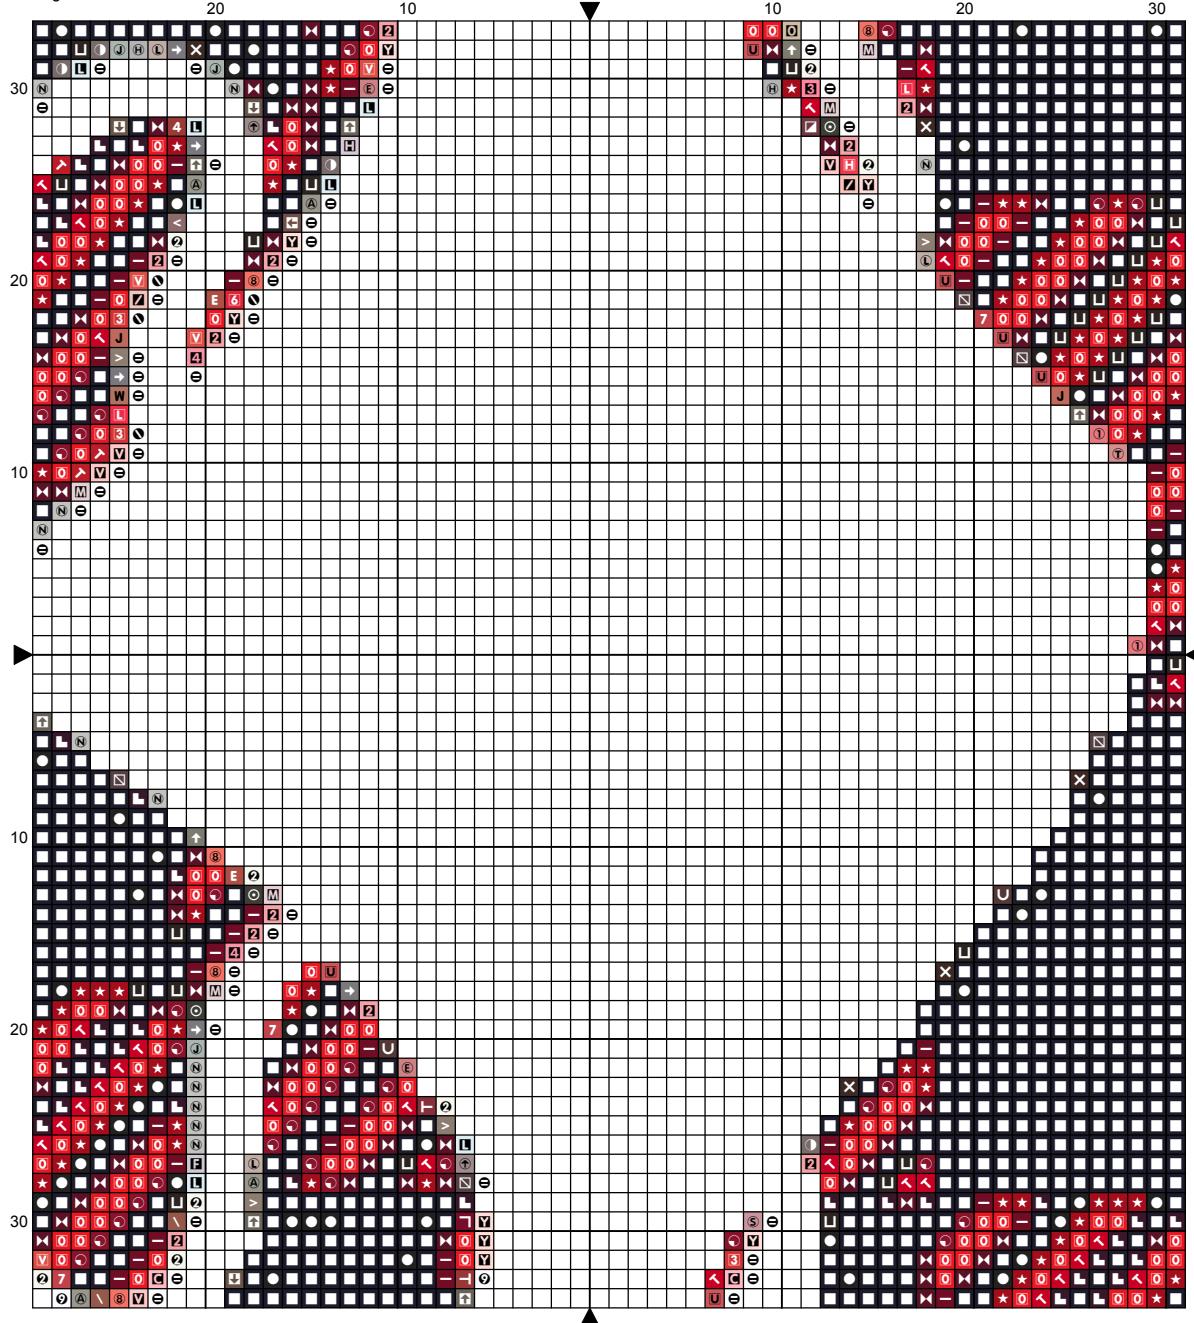

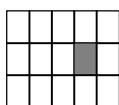

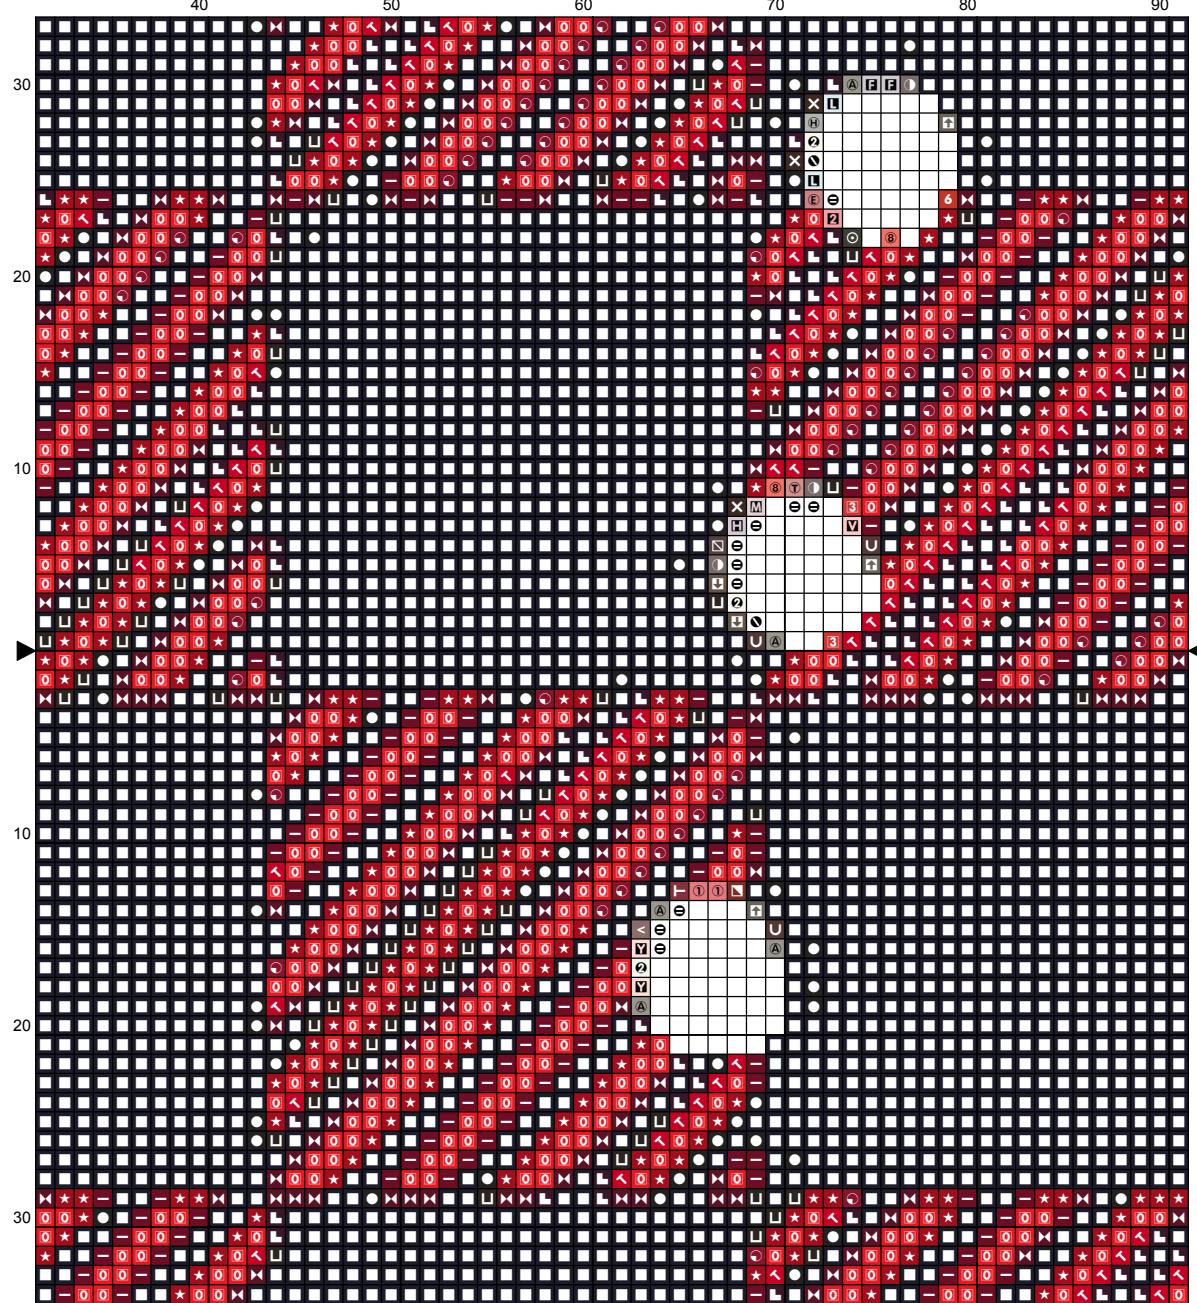

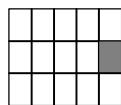

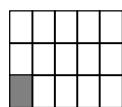

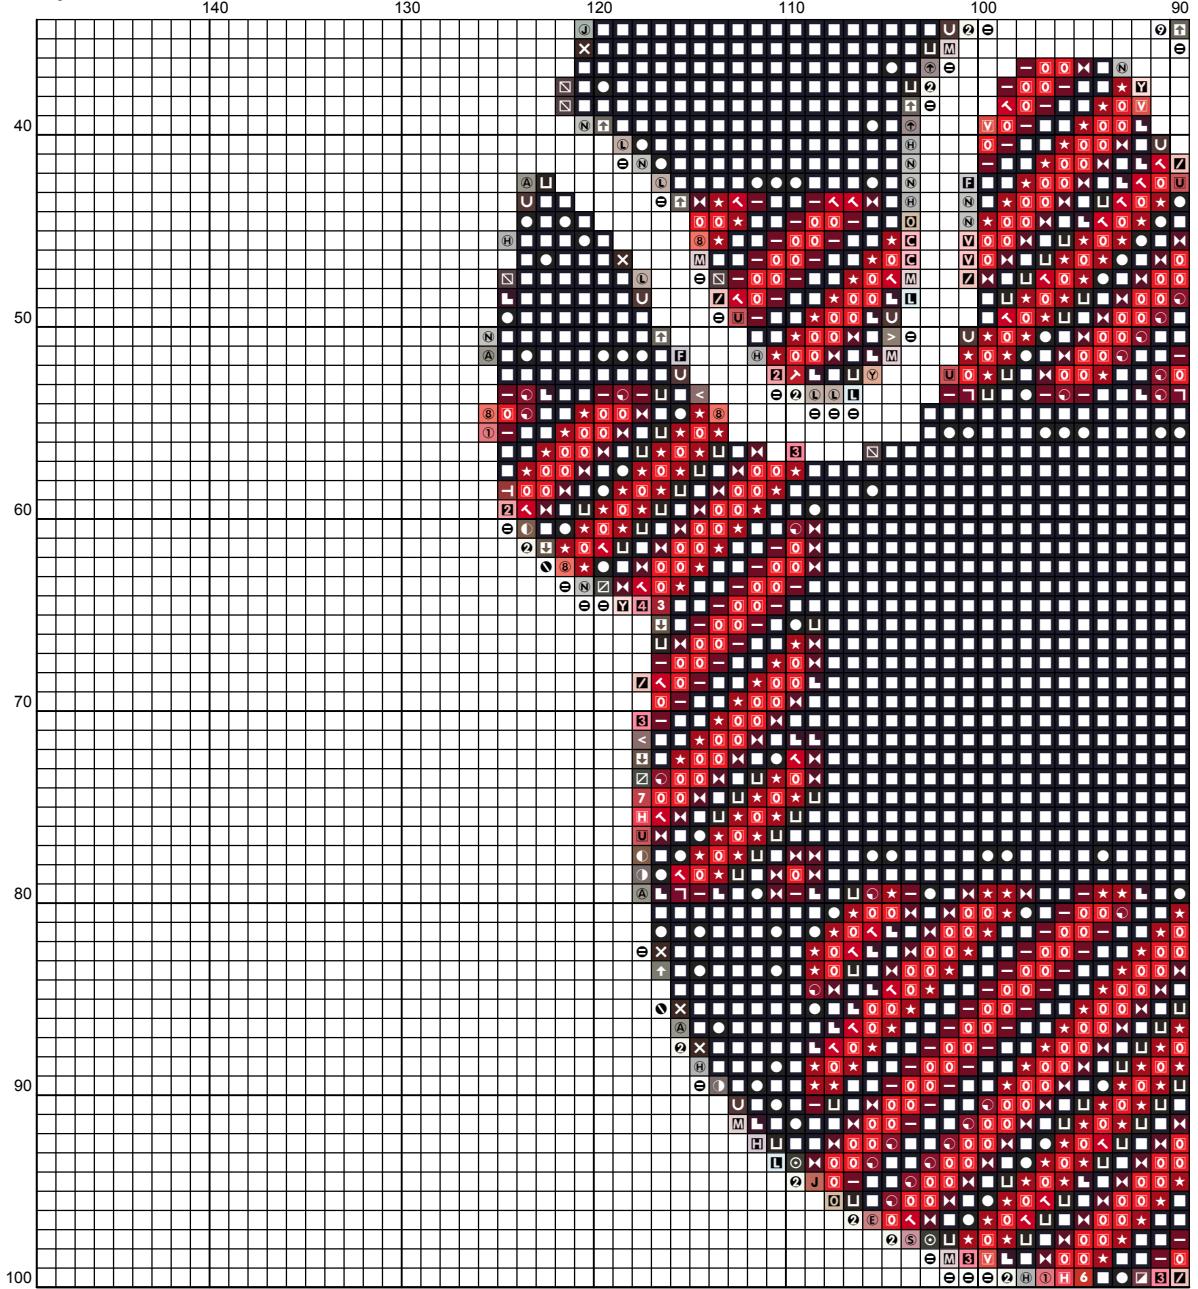

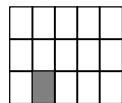

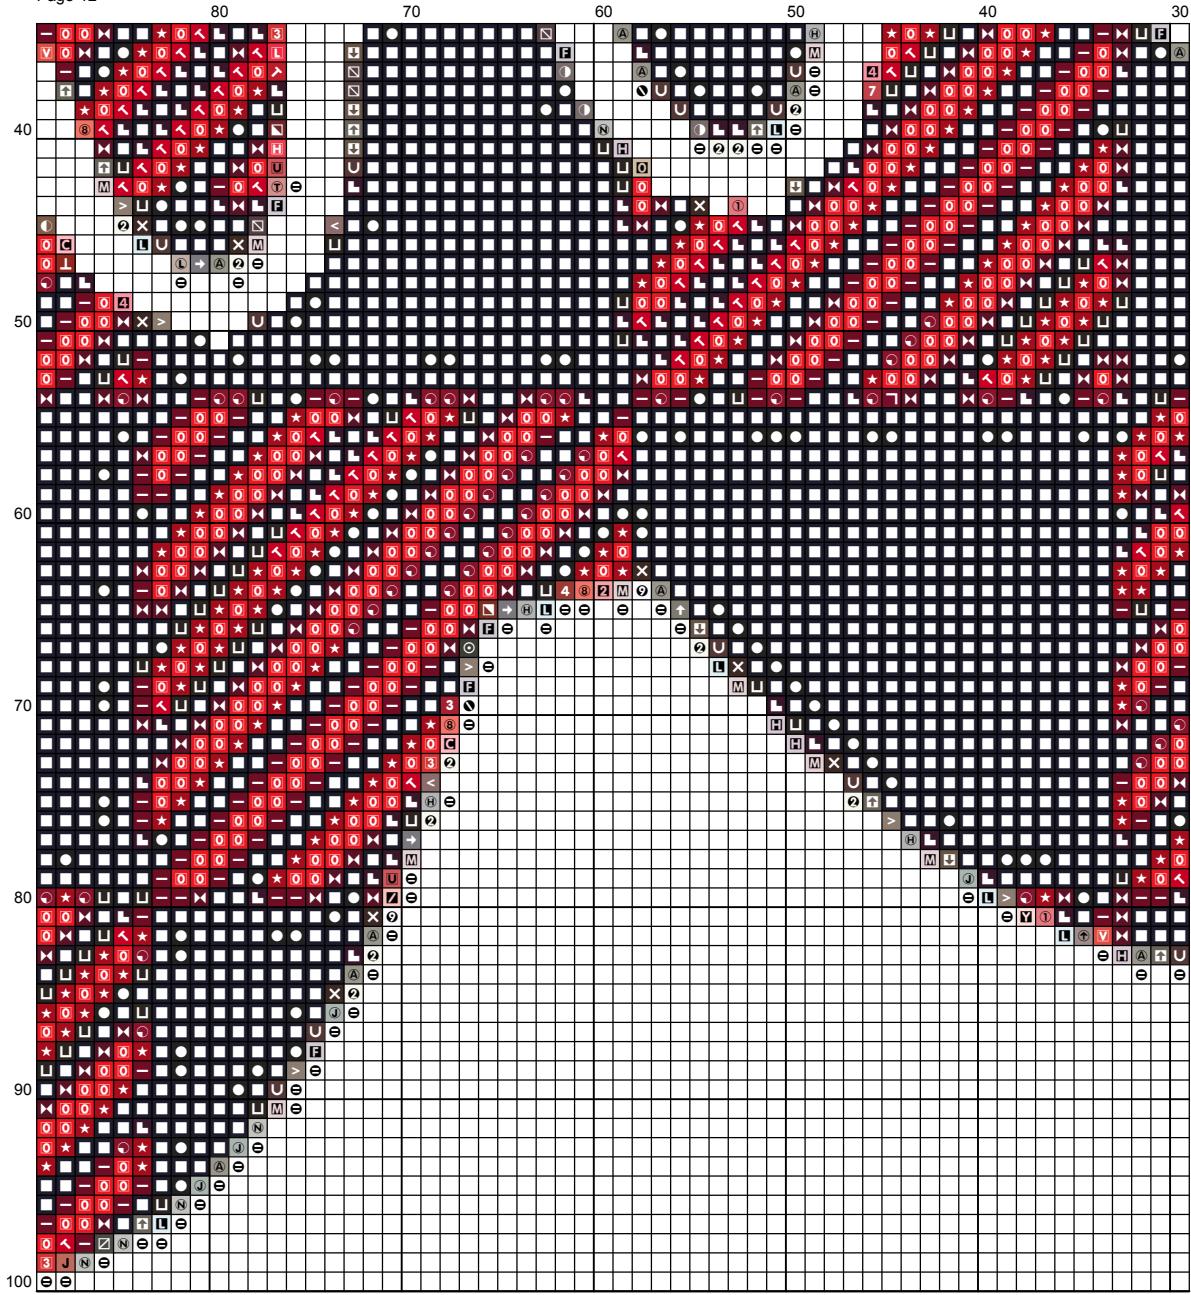

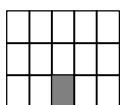

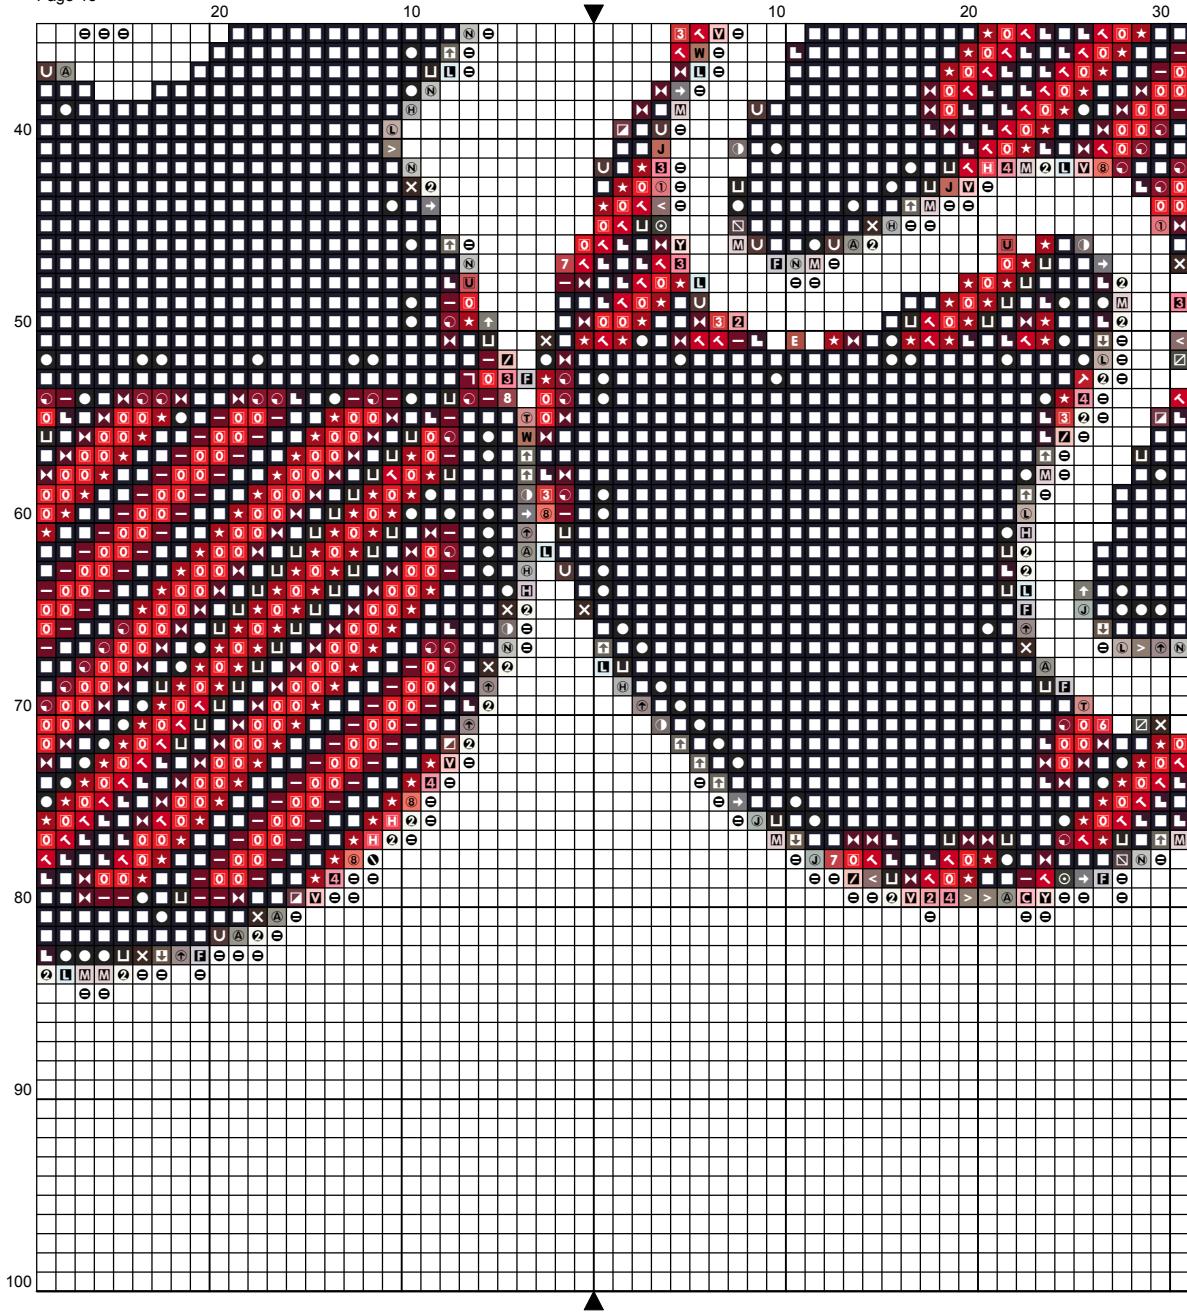

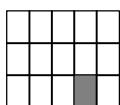

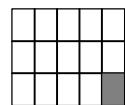

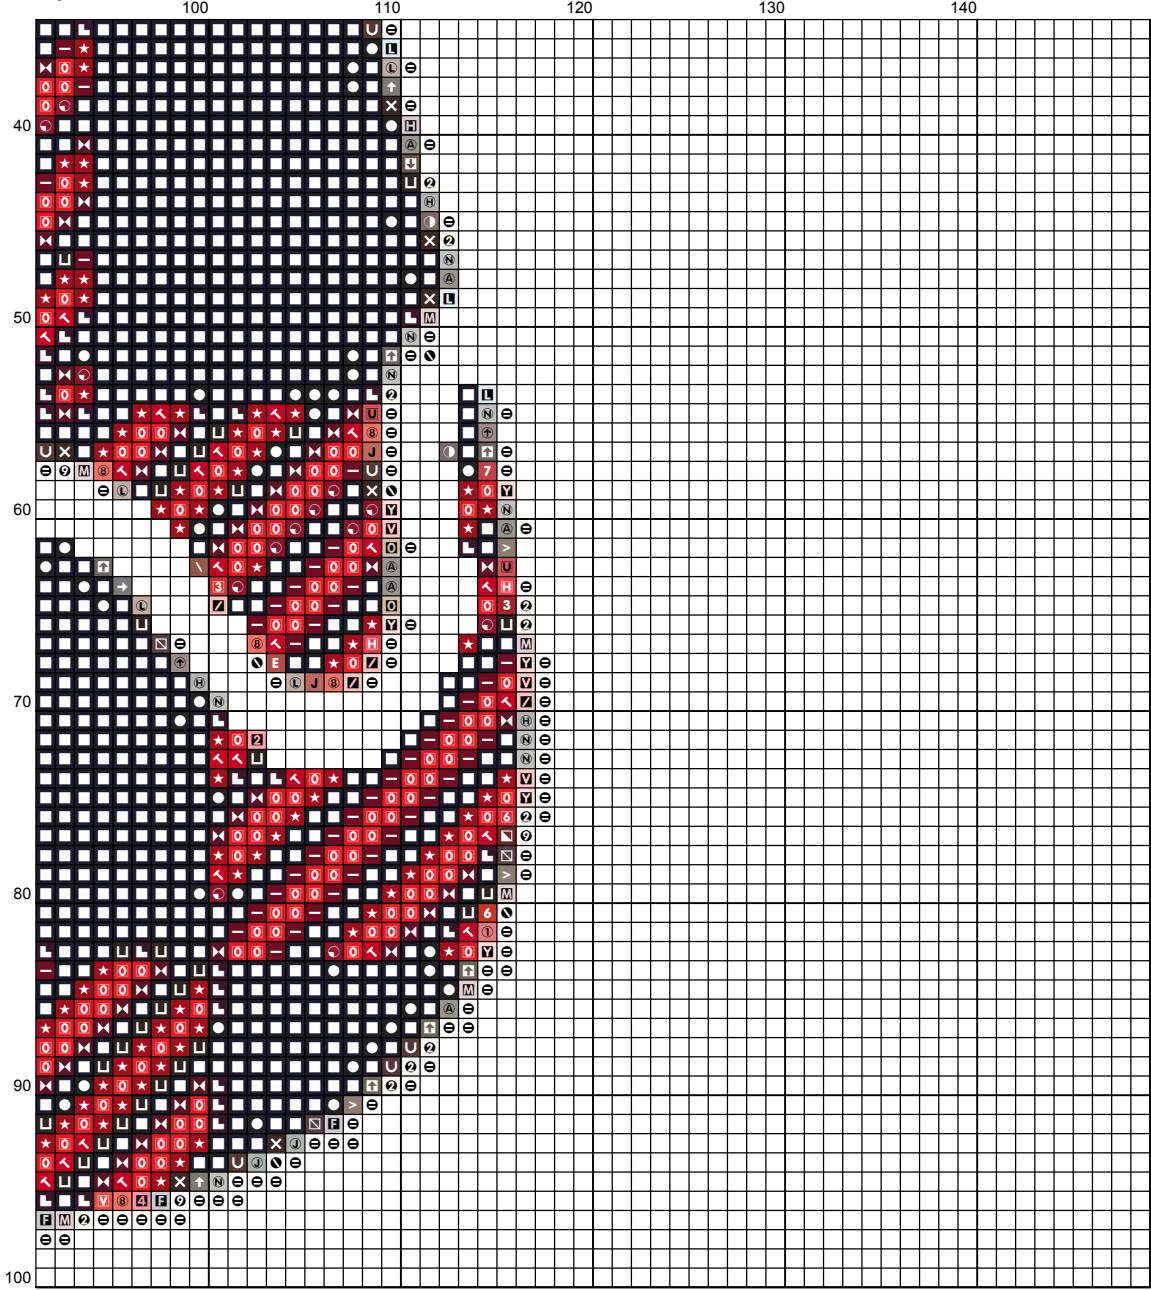

The image is a complex ASCII art representation of the Death Star from Star Wars. It features a large, central circular structure with various levels of concentric rings and radial supports. The entire image is composed of a grid of characters, primarily black, white, and red, with some grey and brown elements. The central core is a solid black circle. Surrounding it are several layers of concentric circles and radial segments, each composed of different characters like asterisks (\*), squares (█), and various symbols. The outermost layer appears to be a walkway or rampart, with some sections showing damage or debris. The overall effect is a detailed technical drawing or map of the iconic space station.

## Instructions and Symbol Key
