

Usage schematic

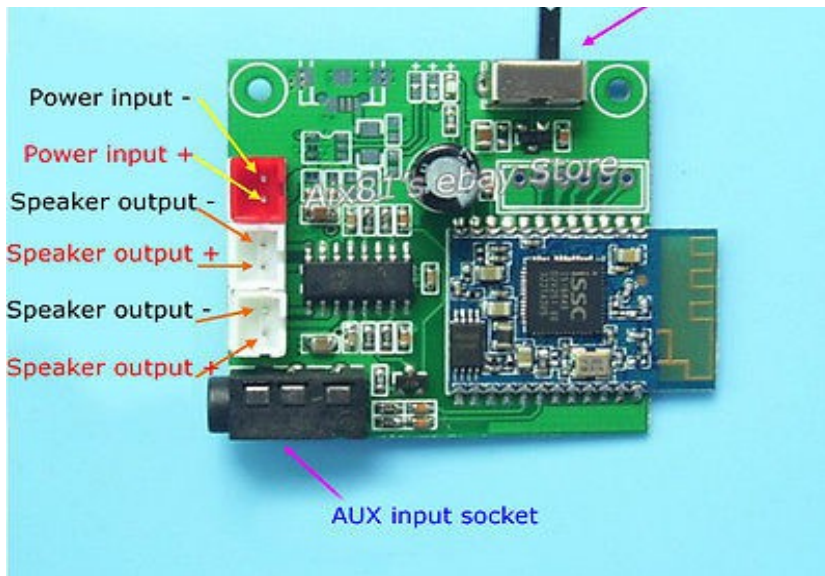

Main features:

- 1, self-powered, can directly drive 4-8 ohm speaker; loud, sound good!
- 2, 5 external key interface, operating modes: play / pause, previous / next selections, volume addition and subtraction;
- 3, 3.5mmAUX input jack;
- 4, automatic back even function;

Basic parameters:

- 1, the working voltage: DC3.5-5.5V
- 2, the output power: 3W + 3W;
- 3, Speaker impedance: 4-8Ω
- 4, Bluetooth version: V3.0
- 5, the signal to noise ratio:> 90dB (SNR);
- 6, frequency response: 80Hz-20KHz;
- 7, AUX input level: 700mV;
- 8, receiving distance:> 10 m
- 9, Size: 40 \* 37mm
