

the Golden Girls

Happy Birthday

G.H.S.
class of

2013

Notes:

1) If you are new to laser cutting, cutters both etch and cut. Usually a second color denotes an area to be etched rather than cut. The names and dates on the wedding bells for example will be etched into the bells, rather than cut through - same with the ribbon on the gift box and the lettering for "Happy Birthday."

* check with the company cutting your piece to find out what colors they use for each process - cutting, and etching.
