

Laser Cut Magnetic Dice Box Template

By Peyton Lee, 2019

1. Copy one of these decorative plates into your document
(or make your own!)

3. Include the other layers (below)

2. Copy one of these box cover designs into your document too, or make your own!
These are provided as examples, and are all designs I've used on gifts for friends.

TIP: Make sure to click the raster (non-outline) and the vector path (outline) itself. They are grouped separately and on different layers in this document. If you're having trouble seeing them, consider temporarily making the outlines thicker and then resetting to 0.01 mm afterwards.

Some of these logos are licensed, so please refrain from using them for commercial purposes. Thanks!

Critical Role logo belongs to CRP Services, LLC DBA Critical Role. Dungeons and Dragons logo belongs to Wizards of the Coast LLC. Monterey Bay Aquarium belongs to the Monterey Bay Aquarium Foundation. Please don't sue.
