

How to make -- Andy, the Automaton

Step One

Use scissors to cut out Andy's body, arms, and tread

Step Two

On Andy's body, fold along the thick black lines that form his shape
Tape the white tab to the inside of his body (A & D) to hold the shape

Step Three

Fold the line where his wheels meet the tread (<). Tape the white tabs to the inside of his sides (B & D). Be sure to have the line at the top of the wheels (at *) meet the line at the bottom of his sides

Step Four

Then, tape the ends of the tread inside Andy's front and back (A & C) so that he can stand!

Step Five

Tape Andy's arms to his body

Step Six

World Domination!
