

SHARK GAME

In this game the Giant Shark attacks fishes with the sharp tooth and taste the other smaller fishes moving to its. We will be having the control over our keypad and we can move the shark up and down where the other fishes coming towards it and once the space key is pressed it opens the mouth and have it and the score will be incremented each time when you capture a fish with the shark mouth. And if you miss the fish your health will be reduced. We have programmed to record the highest score Also.

SOFTWARE USED: PICTOBLOX
