## Pizza Box Art Easel

Here is a fun DIY project for any aspiring artist. To make this Makedo Art Easel, all you need is a pizza box, some plastic lids and Makedo parts available from [mymakedo.com](http://mymakedo.com).

### · Find · Fold · Connect ·

1 Gather the materials for your Makedo Art Easel. You will need some flat cardboard, a pizza box and Makedo Parts.

2 To begin, create a fold on the lid at around 1/4 of the way from the hinge of the box.

3 On the top flap of the pizza box place a piece of cardboard to create an angle.

### · Hinge · Punch · Connect ·

4 Once you have your desired angle, connect it in place using Makedo Lock-hinges and Makedo Re-clips.

5 To prevent the box lid from moving, punch a hole in the side of the box where the lid sits flat as shown in the image.

6 Secure it in place using a Makedo Re-clip.

### · Connect · Share ·

7 Connect your bottle caps or plastic lids to the flat surface using Makedo Re-clips. This is where your paint pots will sit.

8 Your Makedo Pizza Box Art Easel is complete. Now let your imagination run wild and start painting. Remember to share your Makedo creation at [mymakedo.com](http://mymakedo.com). We would love to see it!
