# MINECRAFT-Inspired

## Paper Circuits eBook

In this eBook you'll find full-color pages that are ready to be printed and assembled as well as black & white versions that you can add a coloring activity to in addition to the circuit building.

The projects in this eBook can be made with our Paper Circuits Kit or Origami Circuits Kit. Most require Maker Tape, a CR2032 Battery, and either a Jumbo 10mm LED or a Vibrating Motor. (You'll need to supply your own paper, scissors, tape, and colored pencils, crayons, or markers.)

**Note:** Pages should be printed double-sided. There are two blank pages included to accommodate for this.

### Vibration Creeper

Pages 3-4

Time Required: 15-30 minutes

Requires: Vibrating Motor, Maker Tape, and Battery

### Light-Up LED Torches

Pages 19-24 (Color)

Pages 25-28 (Black & White)

Time Required: 15-30 minutes

Requires: LED, Maker Tape, and Battery

### Vibration Jack-O-Lantern

Pages 5-6

Time Required: 15-30 minutes

Requires: Vibrating Motor, Maker Tape, and Battery

### Vibration Blank

Pages 29-30

Time Required: 15-60 minutes

Requires: Vibrating Motor, Maker Tape, and Battery

### Vibration Dynamite

Pages 7-8

Time Required: 15-30 minutes

Requires: Vibrating Motor, Maker Tape, and Battery

### Light-Up LED Blank

Pages 31-32

Time Required: 15-60 minutes

Requires: LED, Maker Tape, and Battery

### Light-Up LED Lantern

Pages 9-13 (Color)

Pages 14-18 (Black & White)

Time Required: 20-30 minutes

Requires: LED, Maker Tape, and Battery

### Slit Switches

Page 33

Time Required: 2-5 minutes

Requires: Maker Tape

# Minecraft-Inspired Creepers Block

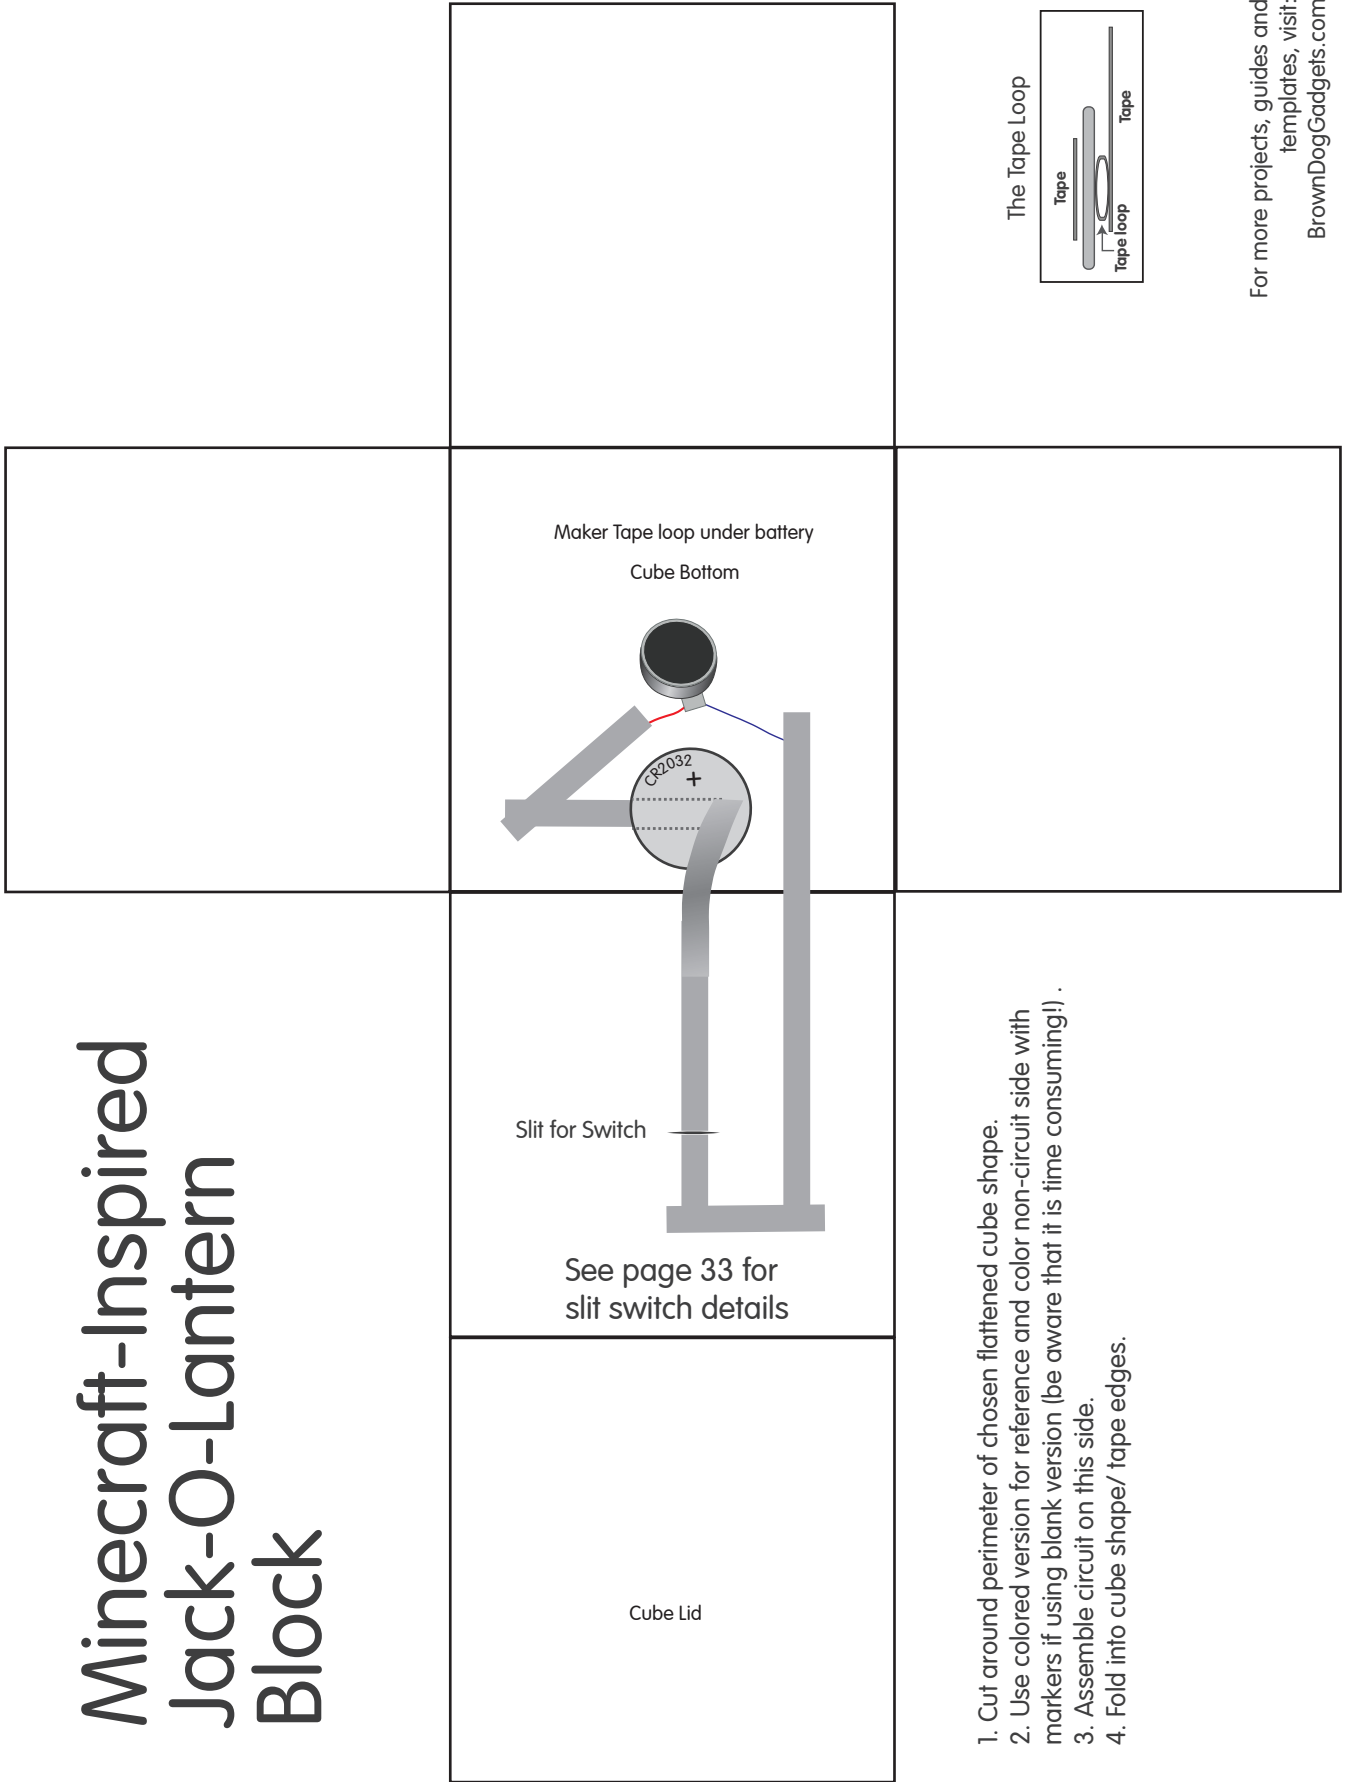

1. Cut around perimeter of chosen flattened cube shape.
2. Use colored version for reference and color non-circuit side with markers if using blank version (be aware that it is time consuming!).
3. Assemble circuit on this side.
4. Fold into cube shape/ tape edges.

Maker Tape loop under battery  
Cube Bottom

Slit for Switch

See page 33 for  
slit switch details

Cube Lid

1. Cut around perimeter of chosen flattened cube shape.
2. Use colored version for reference and color non-circuit side with markers if using blank version (be aware that it is time consuming!).
3. Assemble circuit on this side.
4. Fold into cube shape/ tape edges.

# Minecraft-Inspired Dynamite Block

1. Cut around perimeter of chosen flattened cube shape.
2. Use colored version for reference and color non-circuit side with markers if using blank version (be aware that it is time consuming!).
3. Assemble circuit on this side.
4. Fold into cube shape/ tape edges.

# Minecraft Inspired Lantern

(Color)

1. Cut around perimeter of your choice of flattened cube shapes.
2. Cut out inner squares on dotted lines leaving 4 "frames".
3. Assemble circuit.
4. Cut your choice of lantern panels.
5. Apply glue to inside of the 4 frames; press colored panels into place.
6. Fold into cube shape/ tape edges.
7. Assemble and add decorative lantern top.

# Assembly details for the slit switch on any vibrating project

(Dynamite, Creeper, and Jack-O-Lantern)

## The Slit Switch

## The Key

- Select a key color that matches the outside of your project so it stands out less when inserted.
- Cut out shape
- Cut a piece of Maker Tape that is 2x the length of the white portion.
- Peel and stick it to one side of the white and around the tip to the opposite side.
- To use, insert conductive end into the slit leaving the colored end hanging out.

## Learn, Create, and Inspire—Even on a Budget

Creating a project from scratch can be difficult for the casual builder. Finding the right directions, the right parts, and the right tools—all at the right price—can be a major hurdle.

At Brown Dog Gadgets, we've created kits and projects for creators of all ages and budgets. Follow our step-by-step project directions and learn more with our classroom resources or find individual parts to dream up your own creations. No matter how or what you create, our products can help you learn the basics of electronics, circuitry, and solar energy.

Find additional eBooks, crafting guides, videos, directions, and educational resources at [BrownDogGadgets.com](http://BrownDogGadgets.com). Contact us for educational discounts and free professional development classes.
