

**Ingredients Required:**

- 1 ½ cups icing sugar
- 1 egg white
- ½ tsp lemon juice

**Method Required:**

1. Separate the egg so that you have just the egg white (the egg yolk could be used to make custard)
2. Lightly whisk the egg white and the lemon juice together in a small bowl.
3. Gradually add the icing sugar, whisking until smooth and combined (you could add a colour at this point and add a bit of extra icing sugar but who wants yellow snow?)
4. After the mixture is combined, pour it into a small snaplock bag.
