

# Soapy Supply

StreC Inc.

The Soapy Supplier was created to remind little kids in pre-school to wash their hands. The Soapy Supplier includes light and sound sequences that are fun and rewarding when they wash their hands. Also through an LCD screen it provides a count on how many kids have washed their hands. When it reaches 200 the LCD screen has a little surprise light and sound sequence rewarding everyone and starts the count all over again. The Soapy supplier is designed to attract kids and remind them to wash their hands.
