

ACHIEVEMENT PATCH PATTERN

There are lots of things you've learned to do recently. Think about what you are most proud of and come up with an 8-bit design to show your pride!

The above design is for the science buffs and chemistry lovers. Use the patterns to the left to map out your design before you do it.

Each square should be 13 x 13 blocks if you want to follow our pattern. The rounded corners are optional to help add to the patch look to the designs.

Be sure to tag us on Instagram with your creations you can find us there @the_maker_studio
