...

[Scene opens to the battle of Nirnaeth Arnoediad]

[Rank upon rank of orcs and trolls fall upon the proud but wavering lines of Dor-Lomin, Fingon, and Gondolin]

[Hurin, Huor, Maeglin, Echthellion, Glorfindel, and Turgon are seen fighting]

[The hosts of the Eldar are pushed back]

[Several balrogs advance with a guard of trolls toward the Elven armies]

[Huor and Hurin turn to Turgon]

[The battle rages around them]

[Hurin]: 'Go now, while there is still time! For in you lives the last hope of the Eldar, and while Gondolin stands Morgoth shall still know fear in his heart.'

[Turgon]: (shakes his head) 'Not long now can Gondolin be hidden; and being discovered it will fall.'

[Huor]: 'Yet if it stands but a little while, then out of your house shall come the hope of Elves and Men. This I say to you, lord, with the eyes of death: though we part here for ever, and I shall not look on your white walls again, from you and from me a new star shall arise.'

[Maeglin narrows his eyes and looks thoughtful]

[Turgon looks grim]

[He nods]

[Turgon]: Namárië!

[Hurin and Huor]: Namárië!

[Hurin]: May the Valar be with you

[Turgon nods]

[The balrogs get closer]

[A troll roars]

[Huor]: Go!

[Turgon turns to his Herald]

[Turgon]: sound the retreat!

[The herald blows a horn for retreat]

[The hosts of Gondolin retreat to the pass of Sirion]

[Fade to black]
