

Ensure you follow these guidelines

Score all the Twister fold lines and bend the mountains and valleys into the operating shape.

Flatten out the twister mechanism again, accurately apply glue to the shaded areas and present the Twister Circles on top, aligning the edges as shown. Press the Twister Circles firmly down onto the glued areas until fully dry.

TWISTER CIRCLES

you will need white PVA glue in order to bond with sufficient strength

Apply glue accurately to the shaded area, present the Twister Circles on top and align these edges

Apply glue accurately to the shaded area, present the Twister Circles on top and align these edges
