

***** NOTE: Colors in the above pictures correspond to the parts below.*****

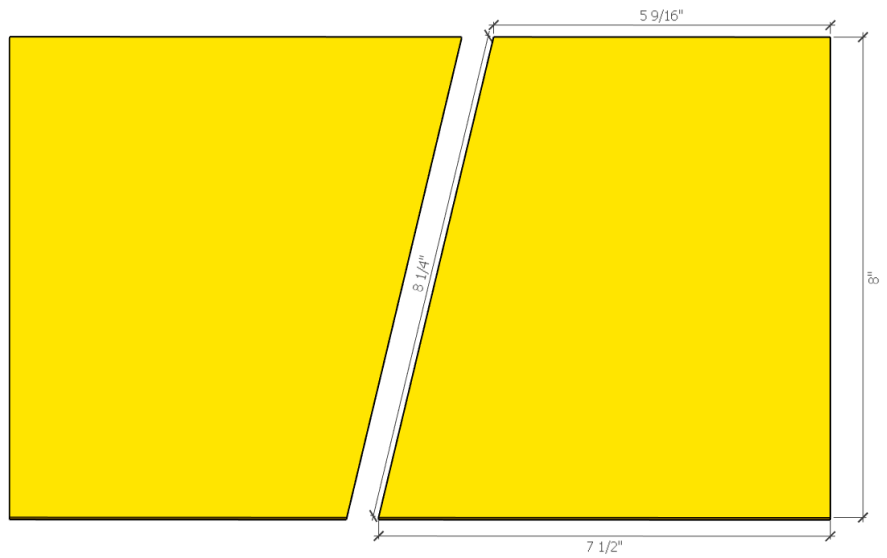

Main Measurements

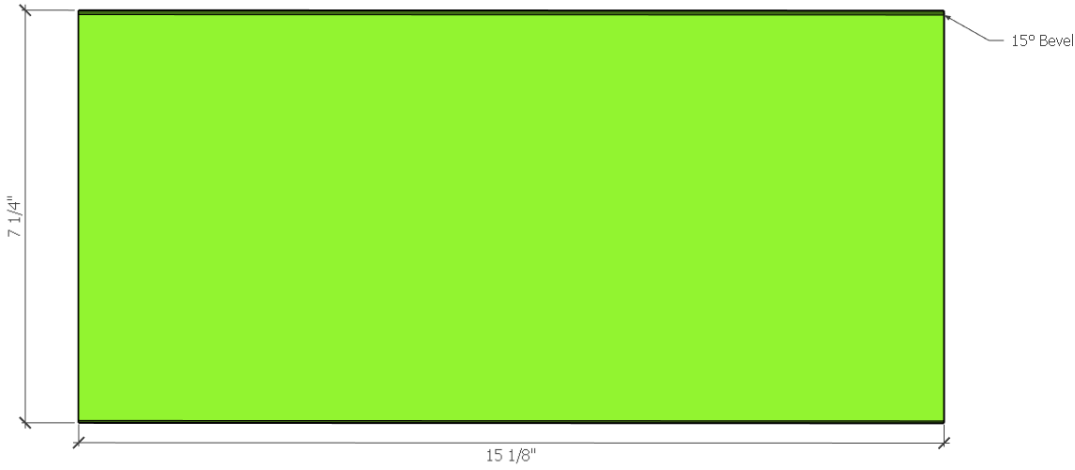

##All parts are cut from 1/2" thick material##

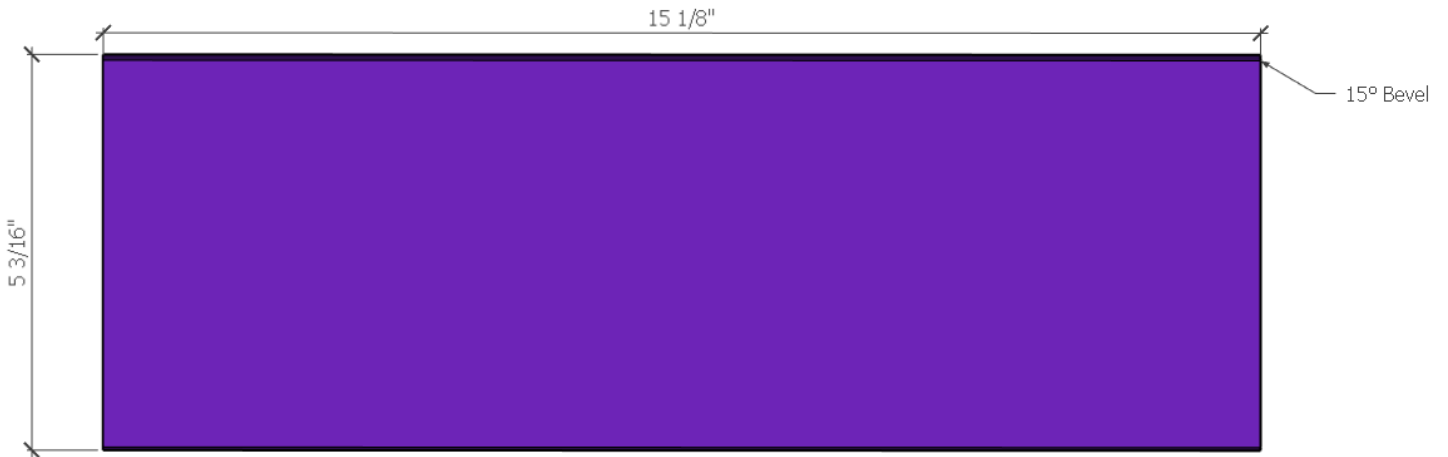

Back wall is 7 1/2"x 15 1/8"

Side pieces (QTY2) are cut with a 13.5° angle on one side.

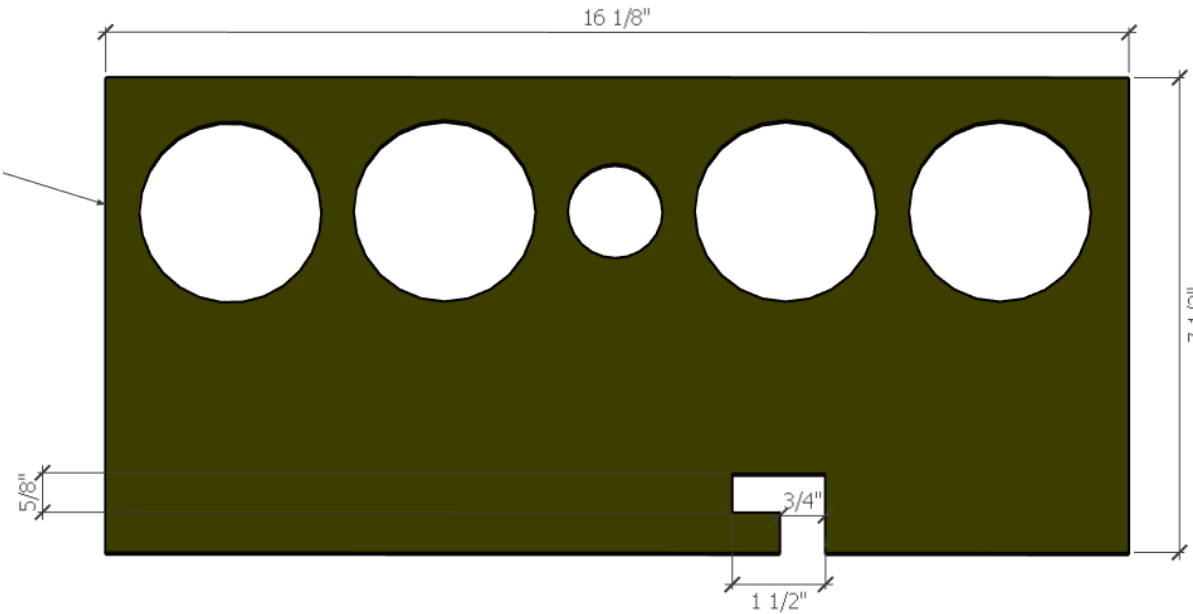

Door
15 1/8"x 7 1/4"
with a 15° bevel
on what will be
the bottom of
the door.

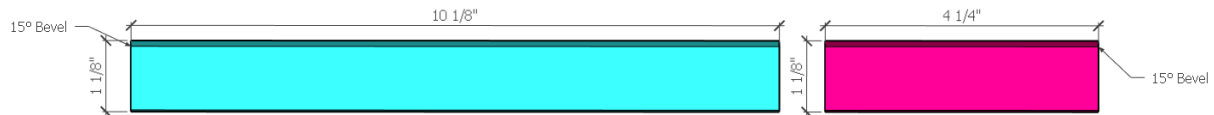

Bottom of the storage unit is 15 1/8"x5 3/16" with a 15° bevel on that will be the front of the bottom piece.

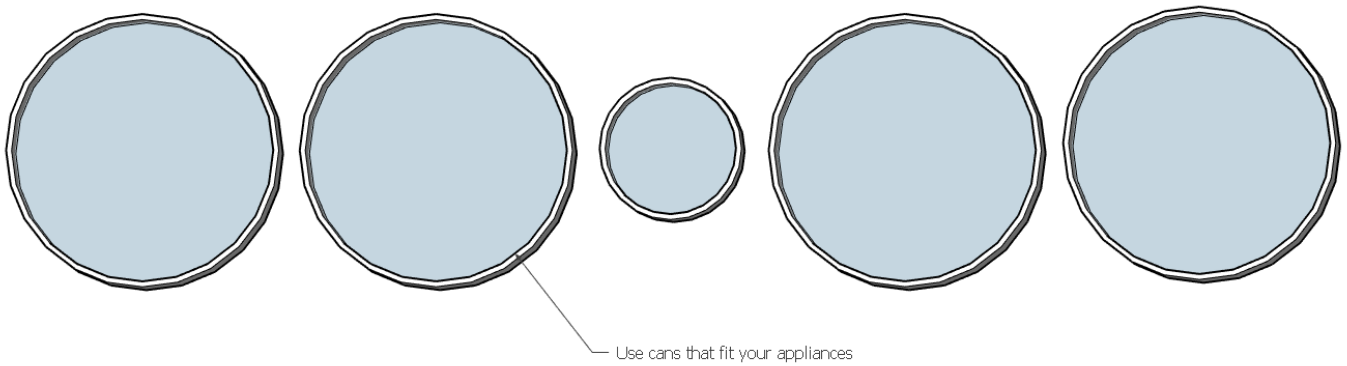

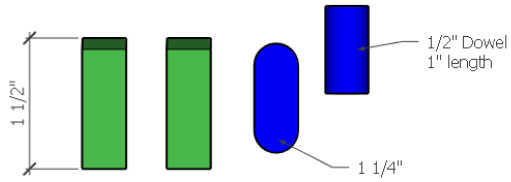

Organizer top is 16 1/8" x 7 1/2"

Cut a notch in the front to allow the cords though with the door closed.

***** Hole sized will vary depending on your can size.*****

Two sections on above the door. You may chose to remove these and extend the size of the door. I designed this way to because I needed clearance for a cabinet,

The cans I used and the door stops and cord wraps.
