

Magnetic Lead Sheet

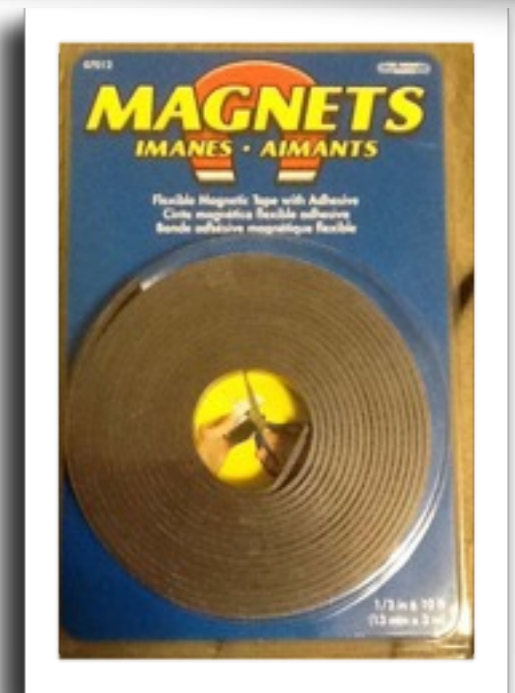

Why I Made This

- To be able to practice scales, songs.
- Jam with others
- Practice in several keys (therefore the Roman Numeral system. However I included a template for the Key of G if you want to use letter chord symbols).
- Songwriting Tool
- Save scrap paper

Materials I Used...

- magnetic music stand
- magnets (adhesive)
- plywood
(24' x 12", from MacBeath Lumber in SF)
- laser cutter (at Techshop SF)
- Illustrator CS3 (Mac)

A note about the wood I use:

I buy my lumber at MacBeath Lumber in San Francisco, CA.

They will cut it to approximate sizes if I ask them.

I have them cut it down so that it will fit in my car, then I use the table saw at Techshop to get it to my exact size, which in this case is 24" x 12". (You will have to take the [WoodShop SBU](#) woodworking class to get signed off to use the table saw.)

IT'S A JUNGLE OUT THERE . . .

Track Down a Reliable Source of Exotic & Domestic Hardwoods!

EDINBURGH

Monday-Thursday 8:00AM - 5:00PM
Friday 8:00AM - 12:00PM
P.O. Box 245 - Edinburgh, IN 46124
(812) 526-9743
(812) 526-6032 fax
edinburgh@macbeath.com

Illustrator Template

- Remember vector is a .001 line. Thicker than that will etch into the wood.
- The actual Illustrator file is attached to this instructible

Key of G Template

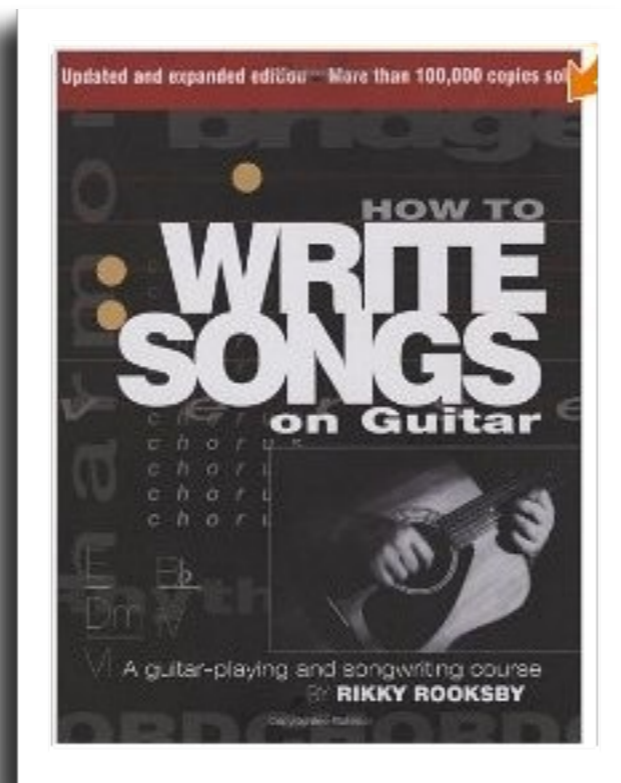

- Diatonic Chords in the key of G Major are:

G, Am, Bm, C, D, Em, F#dim

- Modal Interchange Chords (i.e., G Minor Chords) are:

Bb (bIII), Eb (bvi), F (bvii), Cmin(iv-),
Dmin (v-)

If you have no idea what I'm talking about, or need to brush up on your music theory then *this book is a great resource.*

Print the illustrator file on the laser printer.

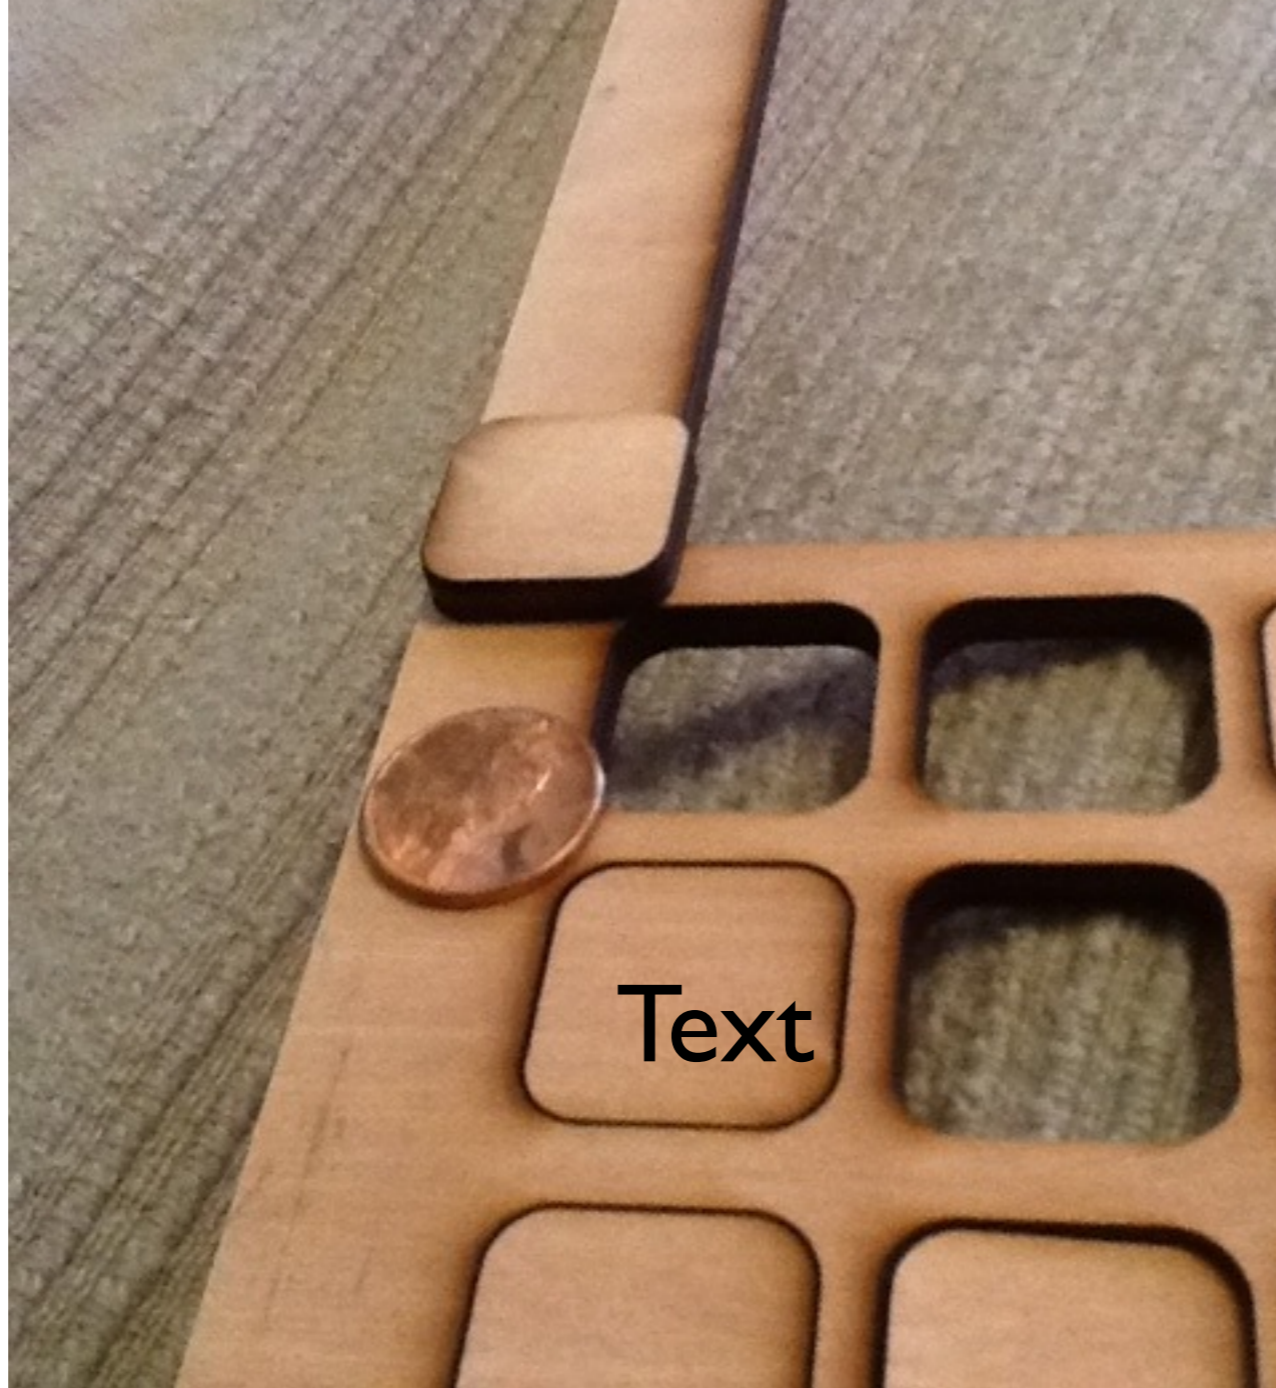

You will need to take Techshop's basic lasercutting class ([Laser Cut SBU](#)) to use this piece of machinery.

In this class you will learn how to take an illustrator file and print it.

You might also need to take the [Illustrator for CNC](#) Class to learn how to get your file ready for the laser cutter.
